

## QUEEN RATTERY HOMING CONTRACT

The new owner agrees to provide the rats with a permanent home, in a suitable environment, and to provide the necessary care the rats need for health and happiness. This includes keeping the rats with same-sex company.

The new owner agrees that if any rat(s) need to be re-homed in the future that they will offer the rat(s) back to Queen Rattery first, and will only re-home the rat(s) to a third party with our permission (and if that person agrees to sign and uphold this agreement).

The new owner agrees not to breed any rats from Queen Rattery, or allow them to be bred from, without prior written consent.

The new owner agrees to inform Queen Rattery if any rat suffers a serious health problem, and when their life ends for whatever reason. (This is in order to allow us to monitor the health and longevity of our breeding line.)

I agree to the all of the above with regards to the rats from Queen Rattery:
